

Wild Mage, level 2:

♦ Spellcasting (Sorcerer 1, PHB 101) [4 cantrips & 3 spells known]

I can cast sorcerer cantrips/spells that I know, using Charisma as my spellcasting ability

I can use an arcane focus as a spellcasting focus for my sorcerer spells

♦ Tides of Chaos (Wild Magic 1, PHB 103) [1× per long rest]

I can gain advantage on either one attack roll, ability check, or saving throw

After I cast a 1st-level or higher sorcerer spell, the DM can impose a Wild Magic Surge

After I roll on the Wild Magic Surge table, I regain my use of Tides of Chaos

♦ Wild Magic Surge (Wild Magic 1, PHB 103)

Wild Magic Surges can happen 5% of the time that I cast a sorcerer spell

This doesn't happen with cantrips and I only take this chance if the DM tells me to

Metamagic can't affect spells cast because of the surge, but they require no concentration

See the "Notes" page for the table

♦ Font of Magic (Sorcerer 2, PHB 101) [Sorcery Points, 2× per long rest]

As a bonus action, I can use sorcery points to create spell slots and vice versa

I can convert spell slots to sorcery points at a rate of 1 point per spell slot level

I can convert sorcery points to spell slots, which last until I finish a long rest, as follows:

Level 1 for 2 sorcery points; level 2 for 3 sorcery points; level 3 for 5 sorcery points

Level 4 for 6 sorcery points; level 5 for 7 sorcery points

ENEMIES

Seraphine nacque in un piccolo villaggio di frontiera, figlia di un tiefling errante, Kheron, e una donna umana di nome Elira, guaritrice del villaggio.

La sua nascita fu accolta con sospetto e paura: le sue corna, pelle rossastra e occhi scintillanti di un intenso violetto erano segni inequivocabili del suo retaggio tiefling.

Nonostante ciò, Elira la difese con amore e coraggio, insegnandole a essere fiera della sua unicità.

Il padre, legato più all'avventura che alla stabilità, rimase presente solo per brevi periodi, regalándole storie di terre lontane e lasciándole una collana con un ciondolo che, secondo lui, proteggeva dai pericoli. Quando Seraphine aveva solo 7 anni, Kheron sparì durante un viaggio, lasciando la madre e la figlia sole.

Seraphine mostrò presto segni di un potere incontrollabile: oggetti che si illuminavano, fiori che appassivano al suo tocco o esplosioni improvvise di luce colorata. Il suo primo vero incidente accadde quando aveva 10 anni: durante un litigio con un coetaneo che la prendeva in giro per le sue origini, un'ondata di energia selvaggia scaturì da lei, incendiando il granaio del villaggio. Nessuno rimase ferito, ma l'evento segnò profondamente la comunità.

Incapace di gestire la paura e il disprezzo degli altri, Seraphine e sua madre furono costrette a lasciare il villaggio. Elira trovò rifugio presso un monastero situato ai margini di una foresta antica, dove i monaci insegnarono a Seraphine tecniche di meditazione per provare a controllare la sua magia caotica.

Nonostante gli insegnamenti dei monaci, Seraphine lottava costantemente con la sua magia. A volte, i suoi incantesimi funzionavano come desiderato; altre volte, gli effetti erano totalmente imprevedibili: piccoli animali apparivano dal nulla, o una leggera pioggia colorata iniziava a cadere attorno a lei. Questo la faceva sentire un pericolo per gli altri e per sé stessa. Tuttavia, la sua empatia per i deboli e gli emarginati, unita all'amore instillatole da sua madre, la spinse a usare i suoi doni per proteggere chi non poteva difendersi.

A 17 anni, un incidente distrusse la tranquillità della sua vita: durante un attacco da parte di briganti al monastero, Seraphine scatenò un'ondata di magia che annientò i nemici ma distrusse una parte del monastero. Devastata dal senso di colpa, decise di lasciare quel luogo e partire in cerca di risposte sulla sua natura.

Seraphine passò i successivi anni vagando di città in città. In alcuni luoghi trovava rifugio, in altri veniva scacciata come un mostro. Lungo il cammino, incontrò altri emarginati: orfani, tiefling rifiutati dalle loro comunità, e persino creature magiche perseguitate. Creò legami con chi, come lei, era visto come un paria, offrendo protezione e speranza.

Nel suo viaggio, Seraphine si sforzò di imparare a controllare la sua magia selvaggia, trovando mentori tra stregoni, maghi e persino druidi che tentarono di guidarla. Tuttavia, la sua magia sembra avere una volontà propria, manifestandosi spesso in momenti di grande emozione.

CHARACTER HISTORY

♦ Wild Magic Surge Table (Wild Magic 1, PHB 104) [results 01-50]

My spellcasting can unleash surges of untamed magic. Immediately after I cast a sorcerer spell of 1st level or higher, the DM can have me roll a d20. If I roll a 1, a Wild Magic Surge happens. Roll on the table below to create a random magical effect. A surge can happen only once per turn.

If a Wild Magic effect is a spell, it's too wild to be affected by Metamagic. If it normally requires concentration, it doesn't require concentration in this case; the spell lasts for its full duration.

d100 Effect

01-02 Roll on this table at the start of each of your turns for the next minute, ignoring this result on subsequent rolls.

03-04 For the next minute, you can see any invisible creature if you have line of sight to it.

05-06 A modron chosen and controlled by the DM appears in an unoccupied space within 1,5 m of you, then disappears 1 minute later.

07-08 You cast fireball as a 3rd-level spell centered on yourself.

09-10 You cast magic missile as a 5th-level spell.

11-12 Roll a d10. Your height changes by a number of inches equal to the roll. If the roll is odd, you shrink. If the roll is even, you grow.

13-14 You cast confusion centered on yourself.

15-16 For the next minute, you regain 5 hit points at the start of each of your turns.

17-18 You grow a long beard made of feathers that remains until you sneeze, at which point the feathers explode out from your face.

19-20 You cast grease centered on yourself.

21-22 Creatures have disadvantage on saving throws against the next spell you cast in the next minute that involves a saving throw.

23-24 Your skin turns a vibrant shade of blue. A remove curse spell can end this effect.

25-26 An eye appears on your forehead for the next minute.

27-28 For the next minute, all your spells with a casting time of 1 action have a casting time of 1 bonus action.

29-30 You teleport up to 18 m to an unoccupied space of your choice that you can see.

31-32 You are transported to the Astral Plane until the end of your next turn, after which time you return to the space you previously occupied or the nearest unoccupied space if that space is occupied.

33-34 Maximize the damage of the next damaging spell you cast within the next minute.

35-36 Roll a d10. Your age changes by a number of years equal to the roll. If the roll is odd, you get younger (minimum 1 year old). If the roll is even, you get older.

37-38 1d6 flumphs controlled by the DM appear in unoccupied spaces within 18 m of you and are frightened of you. They vanish after 1 minute.

39-40 You regain 2d10 hit points.

41-42 You turn into a potted plant until the start of your next turn. While a plant, you are incapacitated and have vulnerability to all damage. If you drop to 0 hit points, your pot breaks, and your form reverts.

43-44 For the next minute, you can teleport up to 6 m as a bonus action on each of your turns.

45-46 You cast levitate on yourself.

47-48 A unicorn controlled by the DM appears in a space within 1,5 m of you, then disappears 1 minute later.

49-50 You can't speak for the next minute. Whenever you try, pink bubbles float out of your mouth.

NOTES

NOTES

♦ Wild Magic Surge Table (Wild Magic 1, PHB 104) [results 51-100]

d100 Effect

51-52 A spectral shield hovers near you for the next minute, granting you a +2 bonus to AC and immunity to magic missile.

53-54 You are immune to being intoxicated by alcohol for the next 5d6 days.

55-56 Your hair falls out but grows back within 24 hours.

57-58 For the next minute, any flammable object you touch that isn't being worn or carried by another creature bursts into flame.

59-60 You regain your lowest-level expended spell slot.

61-62 For the next minute, you must shout when you speak.

63-64 You cast fog cloud centered on yourself.

65-66 Up to three creatures you choose within 9 m of you take 4d10 lightning damage.

67-68 You are frightened by the nearest creature until the end of your next turn.

69-70 Each creature within 9 m of you becomes invisible for the next minute.

The invisibility ends on a creature when it attacks or casts a spell.

71-72 You gain resistance to all damage for the next minute.

73-74 A random creature within 18 m of you becomes poisoned for 1d4 hours.

75-76 You glow with bright light in a 9-m radius for the next minute. Any creature that ends its turn within 1,5 m of you is blinded until the end of its next turn.

79-80 Illusory butterflies and flower petals flutter in the air within 3 m of you for the next minute.

77-78 You cast polymorph on yourself. If you fail the saving throw, you turn into a sheep for the spell's duration.

81-82 You can take one additional action immediately.

83-84 Each creature within 9 m of you takes 1d10 necrotic damage. You regain hit points equal to the sum of the necrotic damage dealt.

85-86 You cast mirror image.

87-88 You cast fly on a random creature within 18 m of you.

89-90 You become invisible for the next minute. During that time, other creatures can't hear you. The invisibility ends if you attack or cast a spell.

91-92 If you die within the next minute, you immediately come back to life as if by the reincarnate spell.

93-94 Your size increases by one size category for the next minute.

95-96 You and all creatures within 9 m of you gain vulnerability to piercing damage for the next minute.

97-98 You are surrounded by faint, ethereal music for the next minute.

99-100 You regain all expended sorcery points.

AREA OF EFFECT

ATTACK (ACTION)

Make one melee or ranged attack with a weapon, or multiple attacks with the 'Extra Attack' class feature. (See the 'Attack Action' section below.)

CAST A SPELL (CASTING TIME OF THE SPELL)

Effect depends on the spell being cast.

DASH (ACTION)

Gain your speed as extra movement for this turn.

DISENGAGE (ACTION)

Your movement doesn't provoke opportunity attacks for the rest of the turn.

DODGE (ACTION)

Attack rolls from attackers you can see have disadvantage and you have advantage on Dex saving throws until the start of your next turn, until you become incapacitated or your speed drops to 0.

ESCAPE (ACTION)

Escape a grapple by winning a Str (Athletics) or Dex (Acrobatics) check vs. grappler's Str (Athletics) check.

HELP (ACTION)

Give an ally advantage on next ability check or attack roll vs. an opponent within 5 ft of you, if done before the start of your next turn.

HIDE (ACTION)

Hide from those that can't perceive you. Your Dex (Stealth) check is the DC for anybody's Wis (Perception) check to discover you.

OVERRUN (ACTION OR BONUS ACTION) (DMG 272)

Move through hostile's space once by winning opposing Str (Athletics) check. Advantage if you are larger or disadvantage if you are smaller than the opponent.

READY (ACTION)

Choose an action that you will take in response to a set trigger. Taking the action uses your reaction. Ready a spell requires concentration and expends the spell slot.

SEARCH (ACTION)

Search for something, possibly with a Wis (Perception) or Int (Investigation) check.

TUMBLE (ACTION OR BONUS ACTION) (DMG 272)

Move through hostile's space once by winning opposing Dex (Acrobatics) check.

USE OBJECT (ACTION)

You can interact with an object once per turn for free. A second interaction and special cases take an action to complete (e.g. draw a second weapon, equip a shield, drink a potion, retrieve an item from a backpack).

COMBAT ACTIONS

(PHB 192)

MELEE ATTACK (ONE ATTACK)

Normal attack on target within 5 ft. If attacking with a light melee weapon in one hand, allowed to make an attack with a light melee weapon in other hand as a bonus action, see 'Two-Weapon Fighting'. If either weapon has the thrown property, it may be thrown as part of this action.

RANGED ATTACK (ONE ATTACK)

Normal attack if up to normal range (first number). Disadvantage on the attack if up to long range (second number). Disadvantage on the attack if a hostile that is not incapacitated is within 5 ft and can see the attacker.

TWO-WEAPON FIGHTING (BONUS ACTION WITH ATTACK ACTION)

If making an attack with a light melee weapon in one hand, allowed to make an attack with a light melee weapon in other hand as a bonus action. This off-hand attack can't add a positive ability score modifier to the damage roll. If the weapon has the thrown property, it may be thrown as part of this action.

DISARM (INSTEAD OF ONE ATTACK) (DMG 271)

Knock an item from grasp by winning weapon attack roll vs. opponent's Str (Athletics) or Dex (Acrobatics) check. Disadvantage on the weapon attack roll if the item is being held with two or more hands. Larger opponents have advantage and smaller have disadvantage.

GRAPPLE (INSTEAD OF ONE ATTACK)

With a free hand, give the grappled condition to an opponent that is within reach and up to one size larger than you by winning Str (Athletics) check vs. opponent's Str (Athletics) or Dex (Acrobatics) check.

MARK (WITH MELEE ATTACK) (DMG 271)

With a melee attack you can mark the target of that attack. The next opportunity attack against the marked target before the end of your next turn has advantage and doesn't cost you your reaction.

SHOVE (INSTEAD OF ONE ATTACK)

Move opponent 5 ft or make prone by winning opposing Str (Athletics) check. Disadvantage if trying to move the opponent to a side rather than to directly away from you.
